Executive Summary

I am a Data Analyst and SIEM Monitoring Specialist dedicated to transforming complex information into strategic insights. With a solid professional foundation built at organizations like Atos and LabCorp, I specialize in bridging the gap between data-driven decision-making and robust cybersecurity monitoring.

My technical toolkit is anchored in Python, SQL, and Azure, complemented by a strong ability to visualize trends through Power BI and Tableau. Throughout my career, I have focused on projects that deliver tangible value—from architecting comprehensive Azure SIEM environments to designing healthcare dashboards that turn intricate datasets into actionable stories.

Technical Skills:

- Tools & Platforms: ArcSight ESM, Splunk, Azure Sentinel, QRadar, IP Void, Virus Total, ServiceNow, Microsoft Power BI
- Data & Automation: Microsoft Excel (VBA), Power BI
- Core Competencies: Data Wrangling & Cleaning, Data Visualization & Storytelling, Database Querying, Business Acumen, Alert Triage & Incident Monitoring, Log Analysis, Phishing & Email Analysis, Ticketing & Documentation

Soft Skills:

- Communication & Teamwork
- Problem Solving
- Time Management
- Business intelligence reporting
- KPI development & Tracking

Professional Experience:

Atos India Private Limited

Mar 2022 - Sept 2023

Role: Junior Associate

Responsibilities:

- ◆ Security Intelligence: Monitored and analysed real-time data streams using SIEM tools to detect anomalies and potential security breaches, ensuring 24/7 infrastructure integrity.
- ◆ Data-Driven Detection: Utilized Python and SQL to query complex datasets, automating the identification of high-risk patterns and reducing manual monitoring overhead.
- ◆ Cloud Security Analytics: Managed security telemetry within Microsoft Azure, configuring alerts and dashboards that provide a high-level view of the organization's threat landscape.
- ◆ Reporting & Visualization: Designed intuitive security reports and dashboards using Tableau, translating technical security metrics into clear narratives for stakeholders and management.

LabCorp (Formerly Covance)

Jan 2020 - July 2020

Role: Intern

Responsibilities:

- ◆ Data Validation & Integrity: Managed large-scale healthcare datasets, performing rigorous validation to ensure high data quality for clinical reporting.
- ◆ BI Dashboard Development: Conceptualized and developed a Healthcare BI Dashboard that streamlined the visualization of key performance indicators, improving data accessibility for the team.
- ◆ Process Automation: Leveraged Python and advanced Excel functions to automate repetitive data entry tasks, significantly reducing manual errors and saving weekly processing time.
- ◆ Regulatory Awareness: Operated within a highly regulated environment, gaining foundational experience in data privacy and the importance of secure data handling.

Education

Master of Computer Application (MCA)	
Garden City University	2020
Bachelor of Computer Application (BCA)	
New Horizon College	2018

Awards & Accomplishments:

- Cisco Certified - CyberOps Associate 2024
- Microsoft Certified - Power BI Data Analyst Associate 2023
- Microsoft Certified - Azure Fundamentals 2022
- Certified – Jira Fundamentals 2022
